The woolen mills of Bosworth & Wilson, at Carrollton, Kentucky, stopped Monday for the want of water.

Brigadier General Fyffe, a graduate of West Point, and at one time a commander of a brigade under General Buell, died at Urbana, Ohio, on Thursday.

During the months of May, June, July and August $831,431 50 worth of tobacco manufactured at Danville, Virginia, was reported to the revenue officer.

Rev. Henry A. Wise, rector of Christ church, Baltimore, has been invited by the vestry of Christ's church at Alexandria to take charge of that church. The salary is fixed at $[illegible].

Learned blacksmith Burnitt has sent out to his native New Britain, Connecticut, where he intends to remain until the end of his crudite existence.

The son of Professor Tyler, of Amherst, after his graduation from college second in his class, matriculated at a machine shop, where he is still employed.

A gentleman who has traveled extensively through Moore, Chatham and other counties in North Carolina, represent the destruction of the cotton worm to be really fearful.

The negroes of Louisiana say they will not work any more for either wages or a part of the crop—that they have got papers in their pockets that votes them land, and they are going to have it.

There are a dozen negroes in Norfolk, Virginia, slowly turning white. They will no doubt receive the hearty sympathy of the whole Black Republican party. Such misfortunes are aggravating.

It is said that the "K. C. G.'s" are raising a fund to erect a monument to the memory of George W. L. Bickley, the founder of their order, and to provide for his young children.

A Radical divine in Chicago thinks that all men who grow grain and hops with a knowledge that they are to be used in the manufacture of highwines and beer, are guilty of a great sin against God, which ought to be prohibited by act of the Legislature.

France has just lost one of her notables. His name was Decarnie, and he died in prison, a few days ago, at the good old age of ninety two, forty-five of which have been spent in confinement. There are few offenses in the penal code which Decarnie had not committed.

It is reported that Secretary McCulloch is about to commission a number of agents to examine into the financial affairs of the National banks in all large cities, with a view to ascertain the actual amount of deposits in each.

Two men entered the cars of the Ohio and Mississippi railroad at Seymour, Indiana, on Friday night, and making their way to the Adams Express car, secured the messenger and robbed the safes of about ten thousand dollars. The robbers escaped.

Charges have been made against General Swayne, at the head of the Freedmen's Bureau in Alabama, on the ground that he is running his office in the interest of himself as a candidate for the United States Senate, under the reconstruction act, stating that his chief clerk, one Kilfier, is the chairman of the State Radical Central Committee.

Brandt & Co.'s oil refinery, at Parkersburg, Virginia, caught fire Sunday morning, from a leak in the man-hole of the still, causing an explosion of the still, by which Charles McCreary, Robert Crooks, John Bradley and George Wright were badly burned. The first two will probably die. The fire was confined to the still house. Loss about $2,500.

An American has invented a novel sort of programme for the French theaters. The paper of the playbill is represented by a light, agreeable crust of pastry, and the ink is chocolate paste. The advantage of the invention is, that when the spectator has mastered the contents of his bill he may eat it.

Dr. Harris reports to the Board of Health of New York that a new disease is prevailing in the hospital ship at the lower quarantine. He says it looks like cholera, but upon investigation it proves to be some new contagion. He believed it to be slowly infectious, and bears a close resemblance to the black typhus of Ireland.

Judge Parker, of the Circuit Court, at Richmond, Virginia, has rendered a decision that the old banks making assignments under the act of February, 1866, cannot give preference to any class of creditors; that noteholders have no preference over depositors; and that depositors of Confederate money are to be treated as debtors of the bank to the extent of their value at the time of deposit.

General E. B. Chase, of Lyndon, Vermont, died on the 16th ultimo, at the age of 67 years. He was a man of note in that region, a leading Democrat for many years, President of the Lyndon bank from its establishment to his death, a director in the Passumpsic road till last year, and generally prominent in town and State affairs.

An autopsy was made of the body of the late Sir Frederick Bruce, in Boston, on Friday, by Dr. H. J. Bigelow, which revealed the fact that death was produced by dysentary, sore throat, and the fatigue of a journey from Naragansett Beach to Boston, an ordeal which a man of ordinary constitution would have fully baffled.

Henry J. Raymond announces that he has retired from the political field.—*St. Louis Times.*

"How long, O Lord, how long?" Raymond's political carreer reminds us of the straight rows made by the honest but inexpert Hibernian, who being told to plow to where a calf was grazing, followed its meanderings all day through the field.

Miss Augusta Evans ("Beulah") lives with her father, who is a merchant, in Mobile. An ardent Southern admirer has seen her and says: "She is of medium size, small waisted, with a well developed bust, a neck very fair, and a perfect model for a sculptor. Her hands and feet are those of a Southern lady, very small and tidy. She looks as if she would weigh about one hundred and fifteen pounds, and to the eye of an artist resembles Power's Greek Slave more than the Venus de Medici or the Venus of Canova."

Secretary McCulloch has issued a circular forbidding all employes of the Treasury Department to furnish any information to persons connected with the public press, unless by special permission from the head of the Bureau. He also directs that no newspaper reporter be allowed in any room of the department, unless on business with the department. He further states that any violation of this rule will subject such employe to immediate dismissal. The object in issuing the order is stated to be to prevent the embarrassment and annoyance occasioned by the publication of misrepresentations of facts based upon imperfect statements.

At the late session of the Supreme Court for Richmond county, North Carolina, Julia Leak, a colored girl, was found guilty of having poisoned an infant child of Mr. W. H. Petteway, at Laurinburgh, on the 3d of August last, and sentenced to be hanged.

At the late election in Lower Canada, a Mr. La Francois, who was a caddidate for the Provincial Legislature, was offered $40 to retire from the canvass, which he declined. He was afterwards forcibly abducted and carried off, so that he could not be present at the nomination until after his competitor was declared elected.

The Boston *Advertiser* calls the attention of the friends of the prohibitory liquor law in that State, to the fact that drunkenness is on the increase, in spite (or because) of the stringent statutes against indulgence in intoxicating beverages. The *Advertiser* says:

"People, who before drank by the pint, now seem to drink by the gallon, and retail tippling is changed to wholesale drunkenness. The arrests for this offense by the police for the first eight months of the year numbered one thousand eight hundred, against one thousand five hundred and forty-nine for the same period last year, and yet it is well known that only a very small proportion of the inebriate, and those only the worse cases, fall into the hands of the law."

A RAILROAD TO TEXAS.

Its Paramount Importance to Memphis.

Forcible Letter from an Old Texan.

We have received the following letter from an old resident of Texas, and take much pleasure in laying it before our readers, promising that every assertion and every hope of advantage held out in it is correct. We commend it to the careful attention of our merchants, whose future interests are vitally concerned in the success of the proposed railroad. It opens up a golden prospect to our men of enterprise, and we hope they will have foresight enough to take hold of its teeming treasures!

CLARKSVILLE, TEXAS, September 12, 1867.

EDITORS AVALANCHE—*Dear Sirs:* Believing that a few lines from Texas, addressed to the people of your section will be acceptable I as an old Texan take the privilege of troubling you with this communication. We, that people of Northern Texas have, as usual, made fine corn crops this year, and would have made from one to two bales of cotton to the acre. The prospect was never finer had it not been for the cotton worm; as it is we will average about a half bale per acre throughout this prairie country. This cotton worm is something new to us. We have never been troubled with anything of the kind before upon our cotton, and it is a very heavy loss. But as we have millions of beef cattle, horses, and sheep in countless numbers we would have plenty of money had we a market for them. And could the people of Memphis but realize the immense trade that Texas would bring to the worthy little city, the man of capital would not stand by and see us struggling our way three times the distance in other directions in search of a market, when the facts are so palpable that with a short span of railroad via Little Rock to Clarksville and Paris, Texas, Memphis would be the recipient of all produce, and the purchaser of all goods, wares and machinery for all Arkansas and Northern and Eastern Texas. Take a glance at the map of our country, and trace the present course and chartered route for the Memphis, El Paso and Pacific railroad, and when you reach Little Rock only make a passing note of a branch road leading westward, which penetrates that immense and now fast improving country south of the Arkansas and north of Red river. After estimating this trade, pass on through Arkansas to the Texas line to Texarkana. There you will discover a branch road leading southward, which is now being built, and at this time nearly graded from Texarkana to the flourishing city of Jefferson, Texas. By this road, Memphis will get all the trade and travel of Eastern Texas. Now, from Texarkana the grand trunk of the Memphis, El Paso and Pacific railroad takes a westward course, passing through Boston, DeKalb, Clarksville, Paris, and so on. At present this road is graded, or nearly so, from Texarkana to Paris. The name of this was done before the war. Now let your enterprising capitalists and business men of your section take the meanest possible view of it, and they are compelled to admit the fact that when the road is completed to this section, viz: Clarksville and Paris, Texas, you are already in the midst of one of the greatest stock raising and cotton growing countries now known, and the God of nature has buried beneath her surface beds of coal, and the richest of mines of iron ore are in Titus, Marion and Davis counties. Petroleum springs of the purest and best abound in Cook and Denton counties, and a little farther west have been discovered copper mines. A company of men are now working them very successfully. The extent of these mines is said to be very great, and those who are working them are making good profits, although there is no railroad or steamboat facilities near them. This is upon the line of the Grand Trunk of the Memphis El Paso, and Pacific railroad. And still further West upon the same line in the Huecca mountains of Texas, I have built my camp fires against the rocks, that when heated would burst, and I have seen the pure silver ore trickle down them like perspiration from the pores of a heated man. These silver mines are very extensive, and were worked from eighteen hundred and ten to eighteen hundred and sixteen by the Government of Spain and the Mexicans; but during the great Apache Indian war the miners were murdered or driven off. They cannot now be worked, as it is yet in the hands of these wild and hostile tribes. Gold is also discovered in great abundance West, and now El Paso, Western Texans and the Mexicans are trying to work them, but the want of facilities and Indian troubles make it almost an impossibility. It is remarkably strange, but no less strange than true, that all these great mines are upon or adjacent to the line designated for the Grand Trunk of the Memphis, El Paso and Pacific railroad. But they never can be worked successfully until this road is built. Then, and not till then, nature will cast off her mantle that has hid these sleeping treasures so long, and she will unbosom to the world so much as yet untold wealth that California and Idaho will pass into insignificance compared with the resources of Texas and Arizona. Contemplate the amount of this very extensive and rich farming country, and the immense stock raising section of Western Texas, that would pour into the lap of Memphis her thousands of bales of cotton and countless numbers of beef cattle, and other produce in proportion. You can but think and know that all you have to do to make Memphis the Empire City is to built this road and rear your manufactories to meet the trade of Texas and Arkansas, and give us your goods, wares and machinery for our raw material. Already immigration is teeming into Texas from all sections—even from Honduras—they return, and the vast resources of Texas can and will provide a home for all who come. The day that the M., P. & P. R. R. is completed to the Texas line will witness the city of Memphis the great emporium, the center and heart of all our trade. I do not own any property in Memphis or near it, and have no policy outside of the good of my country at large in view when I write this. But it is the voice of northern and eastern Texas, and we are subscribing lands by the hundreds of thousands of acres (money we have none), which we wish to mortgage to get this road to reach out our hands and help us help us, and if you can do no more, talk to capitalists for us. The road is not only to benefit Arkansas, Texas and Tennessee, but it will be the best paying institution in the United States, and by its charter the State of Texas gives to the company who will build it, every alternate section of land along its line.

Respectfully,

D. C. RUSSELL.

THURSDAY, : : : : : : : OCTOBER 3, 1867

THE lessons that every day teaches may be gathered from the diurnals. The partizan newspapers are excellent, both as thermometers and barometers. They indicate the degrees of heat and cold, and clearly prognosticate the coming shower, if not deluge, even though to all appearances the skies may seem clear. The *Missouri Democrat*—what a misnomer!—rolls now as coolingly as "a sucking dove," although no paper has been more truculent and ferocious, or bellowed more like a mad bull with the red flag flaunted in his face. It is exceedingly tame now, and from that very gentleness some impressions may be taken, not without their moral. It is full of excuses, palliations, "wise saws and modern instances." It approaches the difficulties and embarrassments that at this time, (as they have done in the near past,) afflict the Radical party, as gingerly as the man who stirred up the monkeys with a long pole. It is not often that we feel inclined to burden our columns with so much Radicalism, but there is an editorial in the *Democrat (!)* of the thirtieth, which shows so much "let down," we must gratify our readers with the vastness of the joke, which we have enjoyed, when remembering the domineering and really offensive manner of the buccaneer-leader of the Missouri Radicals in times past, when it did not mince or measure the force of language, but waiving explanation, bore down with all sail set. How the tune has changed! Who would suspect this to emanate from the same source? There is evidently alarm in the camp—if not consternation. The scare is on, and the amiable is paramount. There is evidently a trembling at the knees—a palor on the cheeks—and the lips are shriveled and have lost their color. The *Missouri Democrat* speaks with that tiny, sickly voice, which CASSIUS regarded with so much contempt. May it be the foreshadowing, or sounding of the future, is our hope and prayer.

That the lesson of Maine and California has not been lost upon the Republicans appears from the actions of conventions in Massachusetts and New York. In Massachusetts an attempt was made to incorporate in the platform a resolution approving prohibitory legislation, but it was defeated largely, by the influence of Senator Wilson, himself an earnest advocate of prohibition, on the ground that the party had nothing to do with that question. In New York the convention adopted a resolution favoring an alteration of the Excise law, which, it will be remembered, was adopted by the Republican majority of the Legislature, without submission to the people, and for which, therefore, the German Republicans of New York are disposed to hold the party responsible. The law now in force in Massachusetts was adopted in the same way, and though it is believed that a majority of the people in that State would sustain prohibition, it is not so clear that a majority would sustain the extreme methods for enforcing prohibition to which that law resorts. There can be no doubt that the New York Sunday law has done a great deal of good, but in some of its features it is peculiarly harsh, and it has given rise to an opposition which threatens to defeat the dominant party. With Democratic control in the State, of course the whole law and many others of great importance would be repealed. The Republicans, therefore, propose to amend it, but the Temperance men, meanwhile, threaten to defeat the Republican party if it does not sustain the law, or if it does not nominate candidates who are prohibitionists. It is strange how impracticable good men sometimes are. The Temperance men seem not to consider that the defeat of the Republican party would not only prevent the adoption of desired legislation but lead to the repeal of existing laws. Yet, because the Republican party finds itself absolutely unable to sustain the present laws, much less to adopt others more stringent, there are advocates of temperance who say that they will defeat it. We trust, however, that the number of those who will pursue so suicidal a policy will be found very small. When the election comes, other duties will claim the attention of every citizen.

As early as 1861, Congress adopted almost unanimously the celebrated Crittenden resolutions, in which they proclaimed to the world, "That this war is not waged on our part in any spirit of oppression; nor for any purpose of conquest and subjugation, nor for the purpose of overthrowing or interfering with the established institutions of the States; but to defend and maintain the supremacy of the Constitution, and to preserve the Union with all the dignity, equality, and rights of the several States unimpaired; and that so soon as these objects are accomplished the war ought to cease."

Some antediluvian has scared up that long forgotten and lugubrious piece of intelligence. Did we say an antediluvian? We meant antiquarian. There have been three floods, which have been handed down to us from "posterity!" The flood of Deucalion, when the dragon's teeth were converted into armed men, and did not leave a remnant of each other to tell the tale of the Kilkenny cats. Then there was the flood in which NOAH proved himself a good navigator "as he sailed," and shunned cold water for the rest of his life, as he sat down under his own vine, and, perhaps, fig tree. If it had not been for NOAH, and some of his descendents, our country would not have suffered so much from the late *travail*. The last flood of all was that which rolled over this broad domain and filled it with mingled blood and tears. If CRITTENDEN'S resolution meant anything, which we are considerably disposed to doubt, Congress has taken precious good care it should be stripped of all signification, without pausing to reflect how it would leave the politician who sought immortality by an extremely amiable *role*. No Radical would be willing now to adopt the postulate of the CRITTENDEN resolution; for it was a dead letter when it went on the statute book. Some of the members are in Congress now, who voted for that resolution, but they have short memories, and cannot remember anything of the kind, and would not if they could. As a piece of information, that has become, as it were, obsolete, it is, perhaps, well enough to let the world know that Congress thought very differently "before and after the battle."

R. A. Alexander sold his Australian colt, Dickens, to Mr. Hunter, for $7,500.

The Central saw mill, Cincinnati, owned by Harris & Fish, was entirely destroyed by fire Tuesday morning. Loss $12,000; insurance $5,200.

The newly elected Mayor and City Council of Nashville made haste to be sworn in Tuesday, in an irregular manner, contrary to law. They are governed though by law. The old officials do not recognize the new, but if they meet any more it is understood that they will be dispersed by militia bayonets.

The funeral of General Sterling Price, Tuesday, was one of the largest ever seen in St. Louis. It took place at the Methodist church of Dr. Boyle, where the remains lay in state all the morning, and were visited by a very large number of citizens.

MISSISSIPPI STATE CONVENTION.

MIDNIGHT DISPATCHES.

FROM NEW ORLEANS.

NEW ORLEANS, October 2.

Interments from yellow fever to SIX o'clock this morning, fifty-four.

In the case of the old and new school boards, Judge Duplantier decided the new board had been appointed when no vacancy existed. The resolutions of Council repealing all ordinances touching public schools were null because in conflict with the act of the Legislature, and was a violation of the charter because passed by both branches on the same day. The Judge decided the new board unqualified, and forbid them to perform the duties of school directors of the public schools of New Orleans. No appeal will be taken.

FROM SAN FRANCISCO.

SAN FRANCISCO, October 2.

Wheat shipments for the quarter ending September 30th, 1,492,441 sacks, valued at $1,750,000.

The annual report of the cashier of the Bank of California hows for one year of over $87,000,000.

FROM CHARLESTON.

CHARLESTON, October 2.

General Canby has issued an order prohibiting all provost courts from exercising jurisdiction over any case involving title lands, or in any civil cause where the claim exceeds three hundred dollars. He has also signified his intention to modify General Sickles' order closing bar rooms throughout the Second Military District.

FROM WASHINGTON.

WASHINGTON, October 2.

The following memorandum was to-day issued from the Adjutant General's office:

"To avoid the risk of yellow fever, officers now absent from their commands which are serving in the Fifth Military District are authorized to remain absent until further notice from this office.

"By command of General Grant.

"E. D. TOWNSEND,
"Assistant Adjutant General."

Advices from Hayti to August 30th report President Soluane as in a dangerous position. The rebellion is attributed to Cabral. Soluane was favoring Boss.

At Port au Prince the Government was unable to support the clergy, and commerce was paralyzed. No products are received, and vessels have been waiting for freight since June. The currency has fallen to 90 discount.

FROM NEW YORK.

NEW YORK, October 2.

The earnings of the Central Pacific railroad for September were $200,000 in gold, and operating expenses $96,746, leaving net profits of $103,253. This was with the track open for business to the summit of Sierra Nevada. During this month thirty-five miles will be added to the running portion, which will bring it fairly into the Salt Lake basin and materially add to its revenues.

Letters by the Scotia allude to United States bonds in a rather desponding tone. They give attention to the excitement produced in Europe by the agitation here of the payment of bonds in legal tender notes, and regard the project as the first step toward repudiation.

At the annual election of the Union Pacific railroad to-day two sets of directors were elected and injunctions served on each. The old board will therefore hold over until the courts decide the matter.

Our old friend GEORGE has at length commenced the second volume of life, a married state, and we earnestly invoke of his ruling fates to trace happiness on its every page. He was a gallant soldier in the old Fifth Arkansas, and we trust he may continue to bear with him a charmed life to free him from all harm as it freed him from bullets on many a hard fought field.

DIED.

On September 30, 1867, JAMES H. HUME, aged twenty-six years, after an illness of two weeks.

The subject of this notice was born in Missouri, but his family removing to this place immediately after his birth, and having lived here ever since, he may be claimed as one of our own sons. Selecting the occupation of engineer, he early acquired a full knowledge of the science, and for several years held the position of first engineer on one or more of our first class steamboats. A Catholic in his faith, he lived a consistent member of the Church, and died in a full confidence of realising the welcome of "well done thou good and faithful servant, enter thou into the joys of thy lord." He leaves a wife and two brothers to mourn his loss, but with them leaves the record of a true man, a loving husband and a kind brother.

Notice,

I HEREBY forewarn the public not to trade for an acceptance dated Hot Springs, Ark., September 12, 1867, at ten (10) days sight, for one hundred and seven dollars ($107) in favor of W. D. I was forced to give the same, which I did under pressure, there being no consideration for them.

To the Citizens of Memphis:

"Oh! for a whip to every honest hand
To lash the rascal naked through the world."

In reply to the infamous card of Edward Ivinson, 291 Main street, published in your paper of the 19th instant, I denounce him a liar and an ingrate scoundrel. *His note was given to me for a just consideration, without force or pretext. It was due for hire of my patient the past two seasons.*

If the fellow Ivinson has unnumbered property, I will collect the note, and if an opportunity presents, I'll promise to expose an ingratitude so much as his proportions to the community and generation of an honest and respectable community.

Public Sale
OF
300 ACRES SUBURBAN LAND

ON TEN YEARS' CREDIT.

I PROPOSE to sell at public sale, to the highest bidder on THURSDAY, the 14th of November, 1867, about three hundred acres Field and Forest Land, on my Homestead Tract, situated three miles east of Memphis, at the head of Union avenue, and lying between Central avenue and the Old State Line road. The most popular street pavements being now in process of construction in Memphis, good turnpikes or street railways on the roads leading from the city directly through this property, must soon follow, thereby affording the most reasonable probability of its early and rapid enhancement in value.

In stating the advantages of this property, I would especially refer to the HEALTH of the locality as having been always considered equal if not superior to that of any portion of the city environs; while the high character of the neighborhood, and the provisions made for CHURCH AND SCHOOL PRIVILEGES combine to render it one of the most desirable points for a suburban residence which the vicinity of Memphis affords.

The TITLE to this property has been vested in my father and myself for thirty years without interruption, and is free from any incumbrance.

The SUBDIVISION OF THE GROUNDS will be in lots of about Five Acres, according to plans to be seen at the office of the Auctioneers. The sale will be opened and the lots numbered so as to be readily examined before the day of sale.

BEING DETERMINED TO SELL, I shall offer the following liberal

TERMS:

One-tenth Cash, the balance in TEN ANNUAL INSTALMENTS, with interest from date, to be secured by deed and Trust Deeds taken, waiving redemption. These terms will make it very easy for any one to secure a handsome home, which must constantly increase in value and comfort, as the growth of Memphis continues.

The Bunlyn Tract at Public Sale.

DESIROUS of carrying out as speedily as possible the provisions of the Will of G. Bunlyn, deceased, in the disposal of his Homestead Tract, WE WILL OFFER AT PUBLIC SALE, the remaining portion of the Tract, consisting of about

SEVENTY-FIVE LOTS,

Varying from ¼ to ten acres in size, embracing with the fine lands all the wood land lots on the Tract.

The high reputation for the locality which this locality enjoys, and the choice of easy and quick communication with the city by railway or dirt road, give to these lands advantages that must be appreciated by the business man of Memphis, as a cheap, convenient and pleasant point at which to establish their family residence, combining as it does the advantages of town and country.

With the object of removing all difficulty in selling, we shall offer the property upon the following easy

TERMS—One fourth cash, balance in 6, 12, 18 and 24 months' with interest. Warranty deeds given and deed or trust taken, waiving redemption.

EVERY LOT PUT UP WILL BE SOLD WITHOUT RESERVE. Plans of the lots may be obtained at the office of the Auctioneers; each lot being staked so as to be examined before the sale.

Sale will be upon the premises on WEDNESDAY, the 16th of October, 1867.

FRENCH MEDICINES PREPARED BY GRIMAULT & COMPANY

Chemists to His Imperial Highness Prince Napoleon.

THESE different medicines represent the most recent medical discoveries, founded on the principles of chemistry and therapeutics. They must not be confounded with secret or quack medicines, as the names sufficiently indicate their composition; a circumstance which has caused them to be appreciated and prescribed by the faculty in the whole world. They are widely differ from those numerous medicines advertised in the public papers as able to cure every possible disease, as they are exclusively confined to their special cures. The most stringent laws exist in France with regard to the sale of medical preparations, and only those which have undergone an examination by the Academy of Medicine, and have been accredited, are allowed to be sold in the pharmacies of the first medical men, are authorised by the government. This fact must be a guarantee for the confidence we desire to establish between GRIMAULT & CO.'s medicines.

REGISTRATION.—Commissioner Davis, in obedience to the franchise law, will open his office on Monday and keep it open for two weeks. The office will be in Exchange building.

UNITED STATES COURT.—But little was done in Court on yesterday. The argument in the case of Maples vs. Bridges, was not concluded. It will be continued to-day.

LAW SCHOOL OF MEMPHIS.—This school will open at the Memphis College, formerly the St. Lazarus College, on Monday the seventh of October, at four o'clock, p.m. It is desirable that students be in attendance at the commencement.

STOCK THEFT.—Constable Jericho captured a negro yesterday who had stolen four cows and calves from a farmer named Thomas Fletcher, on Horn Lake road. He had offered the whole lot for thirty dollars, which led to detection.

CHANGE OF BASE.—General Ord's h[illegible], after next Thursday, will be at Holly Springs, at [illegible] have already been obtained for himself and [illegible] we learn, will find difficulty in obtaining quarters.

TOBACCO THIEF.—Jack Smith stole a box of tobacco from the steamer Lady, and is now in the stationhouse, enjoying the hospitalities of that institution.

LARCENY.—Lucy Hamilton was committed to jail yesterday by Squire Morris, for larceny. She will be attended to this morning.

CHANCERY COURT.—The case of Harris vs. Werner, was taken up on yesterday. Counsel not being ready for trial, it was postponed to the 10th instant.

The case of Harlan vs. Avery, jury case, comes up for hearing to-day.

A final decree was entered in the case of Jewell vs. Folger.

SHELBY COUNTY CRIMINAL COURT.—The jury in the case of Bob Goldsby, assault with intent to kill, returned a verdict of "not guilty." A *nolle prosqui* was entered by the Attorney General in the same case in favor of the co-defendant of Goldsby.

DISCHARGED.—Frank Benson, arrested some time since, for shooting a negro in a difficulty, at the press room of the *Bulletin*, was discharged yesterday by Judge Hunter, on a writ of *habeas corpus*.

GAMBLING.—Andrew Moss, Charles Matthews, and L. Wilson, three "sports" of the negro persuasion, were caught in an old ice house on the levee playing a little game for a dollar a corner. They had not paid the gambling commutation and had to suffer.

TILL ROBBERY.—Thomas Jackson, having the color of smoked ivory, made an attack on the till of Mr. Tindall, and almost succeeded in making off with his booty but Mr. Tindall was too fast for him, and he will find out this morning that honesty is the best policy.

ASSAULT.—Kitty Faulkner, a buxom colored girl, was discharged from her employment, and another negro woman got the place, and she was bound to have revenge. She accordingly committed the assault for which she is now in the calaboose. The assault was aggravated from the fact that her opponent was nearly blind.

HAIGHT & CHAMBER'S CIRCUS.—This establishment, as good a one as travels, opens here on Monday next. It possesses a combination of attractions which are but seldom combined under a single canvas, and will prove to the people of Memphis that it is no one-horse show.

GRAND OPENING.—As will be seen by reference to an advertisement in another column, Mrs. Sullivan, possessing one of the finest tastes and largest experiences in the millinery business, will open a new stock of the finest French millinery at No. 297½ Main street, over Boessen's dry goods store, on Monday next. Her friends, whose name is legion, and who have often consulted her taste, will not forget this fact.

MUNICIPAL COURT.—The cases set for trial on yesterday and not disposed of, will be taken up to day. Also, the cases formerly set for the 19th of September, viz: Nos. 194, 206, 207, 208, 209, 213, 214, 215, 216, 217, 218, 219, 220, 221, 222, 223, 226, 229, 235, 240, 241, 242, 243, 244, 245, 246, 247, 248, 249, 250, 251, 252, 253, 254, 255, 256, 257, 258, 259, 260.

The following cases have also been set for trial—Nos. 276, 277 278, 279, 282, 285, 150, 256, 259, 325.

NEW MEMPHIS THEATER.—Miss Boyd appeared last night as May Edwards in the Tick et-of Leave-Man, and as the honest, good hearted May she was good. The rest of the characters commendable all, and showed that the company is getting in good running trim. To night the grand play of "Love" will be produced, Miss Boyd as the Countess. Her complimentary benefit comes off on Friday night, and we know the theater will be crowded from pit to dome. On that night a new ballop by Professor Jacobs will be introduced, dedicated to her by that gentleman, and the talent already displayed by him tells us it will be a success.

CLOTHES THIEF.—Thomas Bowers, a brilliant negro, had a cotton hook, and Richard Jordan was the happy possessor of a carpet sack, pathetic with good clothes. Thomas introduced his cotton hook to Richard's carpet sack, and abstracted his specimens of the tailor's art, in the shape of a bifurcated garment and a coat. Officer Leahy spends his leisure moments on the levee, by the advice of the Chief of Police, and he heard of this operation, and brought this "shade" across the effulgence of Squire Miller, who immediately dissipated it by sending Thomas to jail.

TRANSFER OF REAL ESTATE.—Fletcher Lane to John F. Mills, quit claim to 154 11-100 acres of land being the northern portion said Lane by Mills' containing the following lots—69 80-100 acres, 16 21-100 acres and 29 58-100 acres.

C. Pfannestiehl to J. J. Murphy, trust deed, to secure $3,000 and $2,000; lot on Poplar street, fronting —— feet by seventy-four feet, between Main and Second streets. Also, tract on the bank of Wolf river, three and a half miles east of Memphis, 27 acres. Also, tract on Horn Lake road, eight miles from M[illegible]phis.

"HERE'S YOUR MULE."—It is said F. P. Sullivan is a ridiculous man, but he was unfortunately not the possessor of a mule, who lives a few miles in the country, had nag. Mr. Edmondson said, Sullivan coveted, contrary to the law a mule which it is a[illegible] of Tennessee He did not carry off the halter with the horse attached, but swore out a writ of replevin and got it through the due course of law, as is charged, by false swearing. So thought the Squire, and held him to appear today.

ON THE RAMPAGE.—An old [illegible]ital night before last saw spirits; he imbibed them, and he was a man in a worse fix than if he had been a trance medium. He took possession of a buggy near the Greenlaw Opera House, and a policeman official had to take possession of him before he would agree to vacate it. He got up a small Fourth of July celebration, and as shooting within the corporate limits is not allowed, even on 30 officials, he had to attend the levee of the magnate of the Police Court.

DOMESTIC INFELICITY.—Gus Miller and his wife Gertrude, are unhappy in their domestic relations. In point of fact their quarrels proceeded to such an extent that Gertrude made out yesterday before Squire Miller that she was in great danger of marital chastisement. The Squire, always gallant, determined that Gertrude should no longer have any such cause of complaint, and compelled Gus to give bond that he would keep the peace toward Gertrude.

DIRECT TRADE.—We are informed that two vessels sailed on the 23d from Marseilles to Memphis. One of them is a steamer and the other is a sailing vessel. They are loaded with the direct importations of Messrs. Filbert, Minter & Walker, and will arrive here about the latter end of this month. On the steamship will come Mess. Filbert, head of the Memphis firm, and Major Joseph Barbiere, who have been ransacking the markets of France for months in order to prove to the citizens of Memphis that direct importation will be a success. Too much credit cannot be given these gentlemen for the enterprise they have exhibited, and we hope that a cornucopia of success will award their efforts.

ANOTHER STABBING AFFAIR.—Policeman George Stoke was stabbed in two places yesterday afternoon, about five o'clock, at the Central Station, by an overgrown "mackerel," named Driskill. It appears that Driskill was abusive of Stoke, who went to his cell for the purpose of making him stop his abuse, and the result was that Driskill used his knife upon the officer, once in the left arm, and once in the stomach. The weapon used was a large clasp knife, and was quite an ugly weapon. We have no doubt the mackerels are abusive and annoying to the officers; but have they the right to inflict personal violence upon them, and when so doing if they are stabbed can they expect any sympathy? Is this thing of inflicting personal violence a thing often practiced in our station houses?

ED. WORSHAM.—This is the greatest newspaper country in the world, and Colonel Ed. is the greatest representative of news in the city. Do you want to laugh? Go to Worsham's and get the funny papers; do you want to learn to talk base, play base ball, climb, or handle the "persimmon" in any manner, go get the Clipper and the rest of the sporting journals; are you religiously inclined, he can supply you with any amount of theological polemics; are you romantic, then here is your paradise, for he will give you such tomes of romance as would satisfy a lovesick school girl; do you want stationery, here is such a stock he would invite an heiress; are you a base ballist, then you will look no further, for he has the handiest, roundest, fastest, whitest base balls in the city. They are the favorite of the "long stop," "short stop" swears by them, and the "pitcher" grieves every time he has to part with one. Don't forget Ed, when you want anything in his line.

STABBING AFFAIR.

One Woman Assaults Another with a Butcher Knife.

Maggie Stowe, who lives at 282 Jefferson street, came up town yesterday morning and got drunk. Maggie, we believe, distributes beer to thirsty souls at the Cotton Plant saloon, and as such is subjected to much temptation, which she cannot always resist. This would not be so bad if she would only keep the peace when in this condition, but she will not, and at her boarding house she commenced being disorderly. Mrs. Kenny, who keeps the house, wished to maintain the responsibility of her establishment and endeavored to keep her quiet, but she might as well have tried to settle the gas question, so she sent for a policeman, and officer Brown appeared on the scene in the nick of time to prevent Maggie from immolating Mrs. Kenny. It appears that Maggie, soon after Mrs. Kenny sent for the officer, learned the fact, and it made her infuriate. She seized a butcher knife, and attacked Mrs. Kenny, and succeeded in inflicting a dangerous wound in the neck, and had it not been for the timely arrival of the officer, we would have another tragedy to record. Maggie is now in the First District station-house, and will have an examination this morning.

WORSHAM HOUSE, October 2, 1867.

GENTLEMEN: Your kind note has just been received. Allow me to return my heartfelt thanks for the interest you have taken in my welfare, also for the many kindnesses I have received at the hands of the good people of Memphis. I respectfully name Friday evening, October 4th, as the occasion for the benefit you offer me.

Yours, sincerely,
BELLE BOYD.

TO N. B. FORREST, CONNELLY F. TRIGG, JAMES R. CHALMERS, JAMES B. BINGHAM and others.

TOBIN, LYNN & CO.—If Memphis holds a firm of which they may well be proud, the namesake head of this article is certainly the one. Possessing all the energy and tact necessary for success, and the capital and experience which always commands it, it were a wonder to be anything but successful. We visited their large wholesale establishment a few days since, and were highly pleased at the exhibition. A stock so large and varied that it must satisfy the wants and tastes of their numerous patrons, and gentlemen in attendance whose experience and courtesy has but few, if any, equals. At the head of this galaxy of ability is Mr. Tobin, who manages the affairs and keeps it supplied with all that Eastern markets possess. Mr. Lynn, the late acting Mayor, whose noble stand against Beaumont in his refusal to account for money received by him, has won for him golden opinions from all sort of people, is the second member of the firm, and his success as a merchant is only equaled by his amiability as a gentlemen. The cotton men are Messrs. Pace and Chamberlain, of Dectatur county, and in their department they are unexcelled. They believe in and practice the principle of quick sales and sharp returns, and the farmers should not forget this when sending cotton to Memphis. In the wholesale grocery department we found Mr. M. J. Tobin, as fine a specimen of the accomplished salesman as Memphis owns, while Mr. J. H. Clore, his peer in all the qualities we have enumerated, presides over the dry goods department. The stock of goods for country trade in this establishment, having been purchased with all the care so as to result in the science of purchasing could bring to it, is full, and the planter can supply all his wants without going out of the store. We found in it groceries, dry goods, hardware, liquors, tobacco, bagging and rope in lavish abundance, and daily receiving acquisitions. To our planter friends we do not know Tobin, Lynn & Co., we say the sooner you form their acquaintance the better both for your comfort and profit; to those who already know them it is unnecessary for us to speak. Would that Memphis had a thousand such firms.

BOARD OF ALDERMEN.—This body met yesterday, according to adjournment, and took up the business where they had stopped the previous day. The only matters of general importance transacted were the reference to the Committee on Improvements of a proposition to change our cul verts system to depression. The Mayor and Aldermen Ruffin and Lemon were appointed a committee to cast the vote of the city at the Mississippi and Tennessee railroad election. Alderman Shaw stirred up the Main street question, and had a committee appointed to see if the work was going to be done this winter. The committee to cast the vote of the city in the Memphis and Ohio railroad meeting on the 7th, were instructed to vote against any Director who proposed to vote for the lease or consolidation of that road with any other. This is about the gist of the proceedings yesterday.

MISSISSIPPI POLITICS.—The Radicals of Marshall county, Mississippi, recently held a negro convention at Holly Springs, and nominated two white men and another nigger as candidates for the convention which is to suppose General Ord will soon order for that State. The Radical candidates above referred to are Freedman Bureau Gill, Jim Williams and Edmonds (colored). Gill is notoriously the meanest and most despicable man in the county, while Jim Williams is simply the biggest fool. Edmonds, the "gemman ob color," is simply the innocent dupe in the hands of Gill, who would scruple at nothing, or stop short of nothing, to accomplish his purposes. The Conservatives, however, contemplate bringing out a strong ticket, with wh ch they expect to most triumphantly defeat the whole black-and-tan concern. So mote it be.

BAD BOYS.—Robert Hoops and John Lands are bad boys, and as an evidence of it, theyare charged with disturbing a negro school. It must be said we do not believe so ten year old youths are not calculated to carry it to war far into Africa.

BOUGHT OUT.—Mr. J. B. Gatti has purchased LaFontaine's saloon, 243 Second street, near Jefferson, where he will be most happy to receive his old friends, and as many new ones as will honor him with a call. He would assure all that his liquors, wines and cigars will be unexcelled, and that everything will be done to render a visit agreeable. He will also set a lunch at ten o'clock each day. Mr. Gatti has been a citizen of Memphis for over twenty years, and at all times a good one. Call and see him!

"HALF WAY HOUSE."—This elegant house is situated on the Raleigh road, four miles from the city and half way to Raleigh Springs. It is the intention of the proprietors, Messrs. Ryan & Van Voast, to make this house a pleasant stopping place for parties on their way to the springs. Fine lunch can be set out for visitors at a moment's notice, and good liquors will always be on hand. The house is pleasantly situated, and the grounds are tastefully adorned with shade trees. The proprietors will exert themselves to enhance the comfort and pleasure of their visitors. The house is distant only a pleasant drive from the city, and will amply repay a visit. 7w

RIVER NEWS.

AVALANCHE OFFICE,
THURSDAY, October 3.

BUSINESS—WEATHER—RIVERS.

Weather clear and warm, with little improvement in the river. The packets report four feet eight inches at Phillip's bar and five feet scant at Island 81. Between here and Vicksburg navigation is also impeded, there being six feet scant on the bars. The Ohio remains at low tide, with less than thirty inches in the channel. We have no material change to report in White and Arkansas rivers. The latter stream remains low, with only twenty-eight inches to Pine Bluff, and twenty inches from there to Little Rock.

IN PORT.

American and St. Patrick.

MISCELLANEOUS.

Business on the wharf, yesterday, was fair, considering the small list of boats in port yesterday.

The Pilgrim cleared for Pine Bluff, with all the freight she could carry on the water. She received fifty tons of freight from the Princess.

The Adam Jacobs, Captain Crane, is the regular Thursday Cairo and St. Louis packet. She leaves at five p.m.

The Gleaner, the regular Saturday Pine Bluff United States mail packet, will be in port this evening to receive for the Arkansas, and leave positively on Saturday. Her trip is partially engaged. The Gleaner is a No. 1 boat, and has superb passenger accommodations.

The American, Captain Nolan, is advertised to leave for the Arkansas to-day, at five p.m. Messrs. Levy & Miller are her agents.

The W. R. Arthur, with two barges, passed down for New Orleans last evening, at eight p.m.

The Bridgeport, from St. Louis for Vicksburg, passed down last night.

The Ozark arrived from Pine Bluff at seven p.m.

The St. Patrick, Captain Garret Hulls, was unable to finish her repairs last evening, but will positively leave for Vicksburg and the lands to-day, at twelve m.

Mr. John Laughlin, the popular clerk of the Centralia, has promoted to Captain Nat. Green, Superintendent of the Memphis and Arkansas River Packet Company, a beautiful cane made of a Buffalo Hock. The cane is handsomely silver-mounted, and a beautiful ornament.

The Shark, with barges, is still aground at Island 38.

The Sherman, Captain George Baker, will leave the City wharfboat this morning at ten a.m. for Vicksburg and the ports.

The Princess, from St. Louis for Pine Bluff, passed down last evening.

An Evansville dispatche of the 1st contains the following:

"The Phantom sunk her barge at Tradewater and damaged her freight, and afterwards grounded at Wallace's Bar. The Princess got on my chute, and broke in her guards. A barge at Hurricane. The Bertha and barges are aground at Shawneetown. We have heard nothing from French Island to-day."

The steamer Tioga, from New Orleans for Philadelphia, was burned at sea on the 26th. The passengers and crew were saved by the steamer Rapidan. Perry Short, second assistant engineer, John C. O'Donnell, cl[illegible], and Thomas Crawley, deck passenger, were burned to death.

The Cincinnati *Commercial* of Tuesday says:

The weather was clear and cool yesterday. At Pittsburg the river is falling, with thirteen inches in the channel. Here, it is stationery, with thirty inches in the shoalest points below to Louisville. The Cincinnati, Charlotte, Marine Association, yesterday donated $50 for the yellow fever sufferers in New Orleans. The Howard Association is authorized by telegraph to draw on the Association for that amount. Captains T. S. Batchelor, Georgetti, Alcock and W. F. Wilson were appointed a committee by the Cincinnati Charitable Marine Association, yesterday, to make arrangements for the convention of Western steamboat owners and captains, which convenes in Cincinnati on the 15th of October. The remains of Captain J. C. Shute, of the Cora No. 2, who recently died of yellow fever, were interred at Greenwood Cemetery. In this connection we learn that Captain Shute was an elder brother of Captain Shute was known up on the Mississippi river; the death of his wife, by yellow fever, took place shortly afterward. Captain T. J. Oakes named steam yesterday, for the first time, on his new steamer, Oakes. Mr. Conley Ragsdale takes charge of the office of this mammoth packet.

The *New Orleans Crescent* of Sunday says:

Nothing to do the low water in Red river and the serious detention for quarantine of steamers from this port, the rates of freight have been advanced from six to eight lbs to Alexandria, eight to twelve lbs to Grand Ecore, twenty to twenty-four lbs to Shreveport, and twenty-eight and thirty-two lbs to Jefferson.

The St. Louis *Republican* of Tuesday says:

The weather, toward dark, Sunday evening, took a sudden and most remarkable change from a very pleasant and warm atmosphere to a most decidedly cool one. The first white frost of the season was reported yesterday morning. Business opened with a very fair show of activity. Receipts of produce were quite liberal, as were also offerings of freight. Rates remain as established last week, excepting on the articles of corn and oats to New Orleans, which have been advanced five cents per sack on the former, and ten cents per sack on the latter. We quote rates to New Orleans, Natchez and Vicksburg as follows: Alcohol, ale and beer, coal oil and whiskey, per barrel, $2; apples, onions, potatoes, and flour, per barrel, $ 150; heavy goods and freights per 100 pounds, on deck, 25c; wheat, per barrel, $1; oil, per barrel, $1 25; pork, $1 75; vinegar, $2; cabbages, per crate or box, $1; per head, $1; horses, $12; mules, $10; cattle, $12; sheep, $1 50; hogs, $1 50.

NEW YORK, October 2.—A petition has been filed with Judge Blatchford, asking that the Memphis, El Paso and Pacific Railroad Company be compelled to go into bankruptcy. This is the first case in relation to involuntary bankruptcy on the part of a corporation under the new law.

Grant has issued another retrenchment order, by which the farce of the commuted ration, which has for several years been one dollar, is reduced to fifty cents; and commutation for quarters, which was formerly eighteen dollars per month, is now reduced to nine dollars. This stroke of economy reduces the pay and allowance of detached soldiers on duty in Washington to twenty-four dollars per month.

H. M. T. Hunter is after a pardon, and the President has concluded to grant it, as the application is strongly backed, one of the indorsers being W. H. Seward.

The National Republican Executive Committee has agreed upon Chicago as the place for the meeting of the National Republican Convention.

The steamer Tioga, from New Orleans to Philadelphia, was burned at sea on the 25th. The passengers and crew were saved by the steamer Rapidan. Perry Short, second assistant engineer; John C. O'Donnell, oiler; and Thos. Crowley, coal passer, were burned to death.

WASHINGTON, October 2.—The committee appointed by the members of the bar last August to investigate the difficulty between Bradley and Judge Fisher, arising out of the Surratt trial, reported at the adjourned meeting to-day. The report quotes from Blackstone's Commentary to show what constitutes contempt, and says Bradley should have an opportunity for explanation. Three judges are required to admit, and certainly one could not expel an Attorney. The report recommends the adoption of the resolution declaring the order of Judge Fisher, striking Bradley from the roll, null and void. The constitution authorizes the chairman to present the report to the committee to the Court.

MOBILE, October 2.—The election on the Convention question commenced to-day, with the following results: Mobile county—seven hundred and fifty blacks, six whites; Mobile city—two thousand three hundred and thirty-nine blacks, twenty six whites; total, three thousand and eighty-nine blacks and thirty-two whites.

LONDON, October 1, m.—Consols opened at 94¾; Five-twenties, 72¾; Illinois Central, 77½; Erie, 32. The above quotations are given without reference to the condition of the New York market. No cable advices have been received to-day.

LIVERPOOL, October 1, m.—The cotton market opened steady but quieter than yesterday. The following are the opening quotations: Middling uplands, 8¾d; middling Orleans, 9d. Sales of the day are estimated at 10,000 bales. Breadstuff market firmer, but unchanged. Provisions and produce are unchanged.

LISBON, September 30.—The mail steamer from Rio Janeiro has arrived. She brings the following news from Zene: On the Rio Para the combined land and naval forces of the allied powers had bombarded the Paraguyans in their positions at Curepolty and Huaymita, but with what success is not known. The accounts of the attack, which had reached Rio Janeiro up to the time of the sailing of the steamer, were so conflicting that no definite idea of the result could be formed.

LONDON, October 1.—It is reported on the continent that Napoleon has addressed the sovereigns of the South German states on the subject of their relations with Prussia; and that in his note the French Emperor, a ter calmly discussing the last circular of the Prussian Cabinet urging German unity, asks the southern potentates to pledge themselves not to pass the Main and merge their countries into the new Confederation north.

FLORENCE, September 30.—Garibaldi has refused to give the Italian Government his parole not to engage in hostilities against the Papal States.

LONDON, September 30.—The Pan-Anglican Synod has adopted and issued an address condemning the ratification of Popery, and seeking to promote unity in the Church.

VERSAILLES, October 1.—General Prim, the Spanish revolutionist, has been expelled from Belgium, where he had taken refuge.

FLORENCE, October 1.—It is announced that there will be an immediate change in the Italian Cabinet, and that General Draibine will take the place of Ratazzi at the head of the Government.

LONDON, October 2, p.m.—Consols, 9 7-15. The report of the New York market has been received up to this time by the Atlantic cable. Five-twenties, 72.

LIVERPOOL, October 2, p.m.—Cotton steady. There is a slight improvement in business. Breadstuffs buoyant. WASHINGTON, October 2.—The committee appointed by the members of the bar last August to investigate the difficulty between Bradley and Judge Fisher, arising out of the Surratt trial, reported at the adjourned meeting to-day. The report quotes from Blackstone's Commentary to show what constitutes contempt, and says Bradley should have an opportunity for explanation. Three judges are required to admit, and certainly one could not expel an Attorney. The report recommends the adoption of the resolution declaring the order of Judge Fisher, striking Bradley from the roll, null and void. The constitution authorizes the chairman to present the report to the committee to the Court.

MOBILE, October 2.—The election on the Convention question commenced to-day, with the following results: Mobile county—seven hundred and fifty blacks, six whites; Mobile city—two thousand three hundred and thirty-nine blacks, twenty six whites; total, three thousand and eighty-nine blacks and thirty-two whites.

LONDON, October 1, m.—Consols opened at 94¾; Five-twenties, 72¾; Illinois Central, 77½; Erie, 32. The above quotations are given without reference to the condition of the New York market. No cable advices have been received to-day.

LISBON, September 30.—The mail steamer from Rio Janeiro has arrived. She brings the following news from Zene: On the Rio Para the combined land and naval forces of the allied powers had bombarded the Paraguyans in their positions at Curepolty and Huaymita, but with what success is not known. The accounts of the attack, which had reached Rio Janeiro up to the time of the sailing of the steamer, were so conflicting that no definite idea of the result could be formed.

LONDON, October 1.—It is reported on the continent that Napoleon has addressed the sovereigns of the South German states on the subject of their relations with Prussia; and that in his note the French Emperor, a ter calmly discussing the last circular of the Prussian Cabinet urging German unity, asks the southern potentates to pledge themselves not to pass the Main and merge their countries into the new Confederation north.

FLORENCE, September 30.—Garibaldi has refused to give the Italian Government his parole not to engage in hostilities against the Papal States.

LONDON, September 30.—The Pan-Anglican Synod has adopted and issued an address condemning the ratification of Popery, and seeking to promote unity in the Church.

FLORENCE, October 1.—It is announced that there will be an immediate change in the Italian Cabinet, and that General Draibine will take the place of Ratazzi at the head of the Government.

THE DISCOVERY OF THE AGE

NO material which has ever been discovered has effected greater benefit in the household economy than

McGIMSEY'S MAGIC SOAP.

It is a labor saving invention as well as an invaluable remedy for scurvy, scald head, eruptions of the skin and piles. Dandruff is removed from the head, the teeth whitened and cleansed, plate and jewelry cleaned, stains effectually removed from carpets, furniture, clothes, paint, varnish or marble with the greatest facility and without injury to the material. It is a great saving of time and labor in washing clothes. It is the only known soap which will wash flannels with the ease of cotton or linen without fulling or shrinking. All these important objects can be effected without injury to the skin or the most delicate fabric. It possesses no deleterious qualities whatever. The world is challenged to produce a soap which possesses so many valuable properties, and which is so innocuous and safe. It is a home invention, and defies competition in any part of the world. It has become a necessity in Memphis, and its use is rapidly spreading throughout the south, and eventually will extend over the United States, North and South America, Europe, Asia, Africa and Oceanica. Manufactured solely by C. F. McGIMSEY, Memphis, Tenn. and can soon be found at any respectable family grocery or drug store. The proprietor is determined that its manufacture shall keep pace with the rapidly extending demand for its use
